Lies, murder, and a legendary courtroom battle threaten to tear apart the Territory of Hawaii. In September of 1931, Thalia Massie, a young naval lieutenant ’ s wife, claims to have been raped by five Hawaiian men in Honolulu. Following a hung jury in the rape trial, Thalia ’ s mother, socialite Grace Fortescue, and husband, along with two sailors, kidnap one of the accused in an attempt to coerce a confession. When they are caught after killing him and trying to dump his body in the ocean, Mrs. Fortescue ’ s society friends raise enough money to hire seventy-four-year-old Clarence Darrow out of retirement to defend the vigilante killers. The result is an epic courtroom battle between Darrow and the Territory of Hawaii ’ s top prosecutor, John C. Kelley, in a case that threatens to touch off a race war in Hawaii and results in one of the greatest miscarriages of justice in American history. Written in the style of a novel, but meticulously following the historical record, A Death in the Islands weaves a story of lies, deception, mental illness, racism, revenge, and murder—a series of events in the Territory of Hawaii that nearly tore apart the peaceful islands, reverberating from the tenements of Honolulu to the hallowed halls of Congress, and right into the Oval Office itself, and left a stain on the legacy of one of the greatest legal minds of all time.

This compelling book is an extended case study of the social and legal ramifications of a homicide in a Tiwi community. The author gives a detailed account of the life of the victim and the events surrounding his murder, and describes the cycle of mortuary and seasonal rituals with their elaborate songs and dances. He also looks at the dramatic changes in Tiwi society over the last 100 years, and examines how the Tiwi have responded to the intervention of Western culture. In many areas, he finds, they have adapted and retained their own value system. Venbrux’s account of the investigation and trial following the homicide provides timely and important insights into the issue of Aboriginal People, traditional law and the Australian criminal justice system. Through the strong narrative thread of this book we are presented with an incisive picture of a culture amid conflict and change.

ISLANDS OF DEATH Islands of Victory is a novel about life and survival in the First Marine Division during World War II. It is seen through the eyes of seventeen-year-old Navy Hospital Corpsman, Ted Alexander. Based on actual experiences, it tells the story of Ted and other young Marines, most not old enough to vote, who faced the indescribable horror of a brutal, bloody war. It is about the joys, fears, disappointments and comradeship of those who went away to war as boys, and if they survived, came home as heroic, haunted men. The invasion of Peleliu, one of the most vicious battles in the pacific, is Ted’s introduction to the realities of war. He faces mortar and machine-gun fire wading in blood red waters as he advances toward the slaughter on the beach. Falling behind a burning amtrac he feels a moment of complete safety. How did he come to be in this abominable place? His mind flashes back to the beginning of the conflict. A small-town country boy, Ted was afraid the war would end before he could become a part of the great adventure. Life in the training camps is portrayed. Shipping out, seasickness and the miserable conditions aboard the troop transports follow. Arriving in New Caledonia, the Marines are awed by the native villages and the exotic atmosphere of Noumea, the capitol. Waiting for action, idle hands seek excitement in many ways: fistfights, climbing coconut trees, and trysts with young native girls. Leaving New Caledonia the replacement troops make port in Brisbane, Australia to a rousing welcome. "There will be no liberty granted," the P.A. blaes. "Fill a combat pack and stow your gear in the warehouse," it orders amid moans and groans. Against orders, Ted and Salty Schissler decide to visit Brisbane. Chased by MP’s, they are befriended by two lovely Australian girls who know how to send young men off to war. Departing Australia, the atmosphere changes. Even the ocean seems angry. In New Guinea they see real live natives wearing bones in their noses and ears and carrying spears in their hands. Boarding assault crafts, the troops proceed up New Guinea’s coast and in New Britain, finally catch up with the war. Within minutes Ted finds out that in war people really do get killed. The deep, dark, wet, frightening jungle is beyond imagination. The huge falling trees, typhus fever and other jungle diseases kill many Marines. Expecting to go back to Australia, they are put ashore on Pavuvu, Russel Islands; a tiny, wet, stinking, hellhole occupied by rats and land crabs, where they are expected to make a rest camp. Next it is on to Peleliu. The Japanese extract a terrible toll for every foot of ground gained. The heat from the white coral wrecks havoc on the Marines. Most would sell their souls for one sip of ice water. Day and night, death stalks every step. The cemetery is fast overflowing. Ted and five Marines are ordered to help a decimated squad on a ledge of "Bloody Nose Ridge." The Nippon trail down is saturated by gunfire and their only hope is to roll the wounded over the 150-foot-high ledge. Ted is rendered unconscious by a mortar round as he leaps from the precipice. Coming to, he is tempted by the smell of something cooking. But it’s not food—it is human flesh cooked by flamethrowers. The toll of dead or wounded is tremendous. Virtually every person leaves Peleliu with a physical or mental wound—wounds that don’t show. Rumors fly that the Division is going back to Australia, the land of milk, food and girls. Again, it is not to be, and back to Pavuvu the survivors of Peleliu go. There is joy and there is disappointment in mail calls. Recurring attacks of the devastating

A storm-struck island. A blood-soaked bed. A missing man. In this captivating mystery that’s perfect for fans of Knives Out, Senior Investigator Shana Merchant discovers that murder is a family affair. Thirteen months ago, former NYPD detective Shana Merchant barely survived being abducted by a serial killer. Now hoping to leave grisly murder cases behind, she’s taken a job in her fiancé ’ s sleepy hometown in the Thousand Islands region of Upstate New York. But as a nor’easter bears down on her new territory, Shana and fellow investigator Tim Wellington receive a call about a man missing on a private island. Shana and Tim travel to the isolated island owned by the wealthy Sinclair family to question the witnesses. They arrive to find blood on the scene and a house full of Sinclair family and friends on edge. While Tim guesses they’re dealing with a runaway case, Shana is convinced that they have a murder on their hands. As the gale intensifies outside, she starts conducting interviews and discovers the Sinclairs and their guests are crawling with dark and dangerous secrets. Trapped on the island by the raging storm with only Tim whose reliability is thrown into question, the increasingly restless suspects, and her own trauma-fueled flashbacks for company, Shana will have to trust the one person her abduction destroyed her faith in—herself. But time is ticking down, because if Shana’s right, a killer is in their midst and as the pressure mounts, so do the odds that they’ll strike again.

Anny Butler is a caretaker, a nurturer, first for her own brothers and sisters, and then as a director of an agency devoted to the welfare of children. What she has never had is a real family. That changes when she meets and marries Lewis Aiken, an exuberant surgeon fifteen years older than Anny. When they marry, she finds her family—not a traditional one, but a group of Charleston childhood friends who are inseparable, who are one another’s surrogate family. They are called the Scrubs, and they all, in some way, have the common cord of family. Instantly upon meeting them at the old beach house on Sullivan’s Island, which they co-own, Anny knows that she has found home and family. They vow that, when the time comes, they will find a place where they can live together by the sea. Bad things begin to happen—a hurricane, a fire, deaths—but still the remaining Scrubs cling together. They are watched over and bolstered by Camilla Curry, the heart and core of their group, always the healer. Anny herself allows Camilla to unfold and to care for her. It is the first time she has felt this kind of love and support.

Fiction. Translated from the German by Eugene Hayworth. Tobey and his older sister Megan, raised in poverty in Ireland, are abandoned by their mother while Tobey is still a baby. Years later, Tobey sets off for Dublin. He does not return to the village until he learns about the death of his father; when Tobey arrives for the funeral he discovers that Megan has already departed. The story alternates between Tobey’s search for his sister, and a series of letters from Megan that document her life in London as an animal rights activist, her marriage and divorce, and her work as a veterinarian on a sparsely populated island in the Philippines. Tobey follows in his sister’s footsteps, but when he finally arrives on the island, Megan has vanished. In his effort to unravel the mystery of her disappearance, Tobey discovers a sinister purpose behind the island’s dilapidated laboratories and its enigmatic inhabitants. "With the horrors of a sadly beautiful and treacherously savage island world, Lappert connects the fate of two people who seek happiness and find horror. With great subtlety he unfolds the life stories of two siblings, who escape Ireland to seek fulfillment elsewhere."—Roman Buchel, Neue Z ü rcher Zeitung "A book full of mystery. Lappert arrives at this novel through moods and states, through landscapes and memories. You are held captive by the atmosphere, gripped by the many interior narratives, touched by Lappert’s power with words."—Martin Ebel, Tages-Anzeiger "A novel that grabs the reader from the first page and does everything in its power to subtly convey his moral messages."—Rainer Moritz, Die Welt

Investigating the global system of detention centers that imprison asylum seekers and conceal persistent human rights violations Remote detention centers confine tens of thousands of refugees, asylum seekers, and undocumented immigrants around the world, operating in a legal gray area that hides terrible human rights abuses from the international community. Built to temporarily house eight hundred migrants in transit, the immigrant " reception center " on the Italian island of Lampedusa has held thousands of North African refugees under inhumane conditions for weeks on end. Australia ’ s use of Christmas Island as a detention center for asylum seekers has enabled successive governments to imprison migrants from Asia and Africa, including the Sudanese human rights activist Abdul Aziz Muhamad, held there for five years. In The Death of Asylum, Alison Mountz traces the global chain of remote sites used by states of the Global North to confine migrants fleeing violence and poverty, using cruel measures that, if unchecked, will lead to the death of asylum as an ethical ideal. Through unprecedented access to offshore detention centers and immigrant-processing facilities, Mountz illustrates how authorities in the United States, the European Union, and Australia have created a new and shadowy geopolitical formation allowing them to externalize their borders to distant islands where harsh treatment and deadly force deprive migrants of basic human rights. Mountz details how states use the geographic inaccessibility of places like Christmas Island, almost a thousand miles off the Australian mainland, to isolate asylum seekers far from the scrutiny of humanitarian NGOs, human rights groups, journalists, and their own citizens. By focusing on borderlands and spaces of transit between regions, The Death of Asylum shows how remote detention centers effectively curtail the basic human right to seek asylum, forcing refugees to take more dangerous risks to escape war, famine, and oppression.

Death Penalty Cases presents significant verbatim excerpts of death-penalty decisions from the United States Supreme Court. The first chapter introduces the topics discussed throughout the book. It also includes a detailed history of the death penalty in the United States. After this introduction, the remaining eighteen chapters are divided into five parts: Foundational Cases, Death-Eligible Crimes and Persons, The Death Penalty Trial, Post-Conviction Review, and Execution Issues. The first part, consisting of five chapters, talks about the mandatory death penalty, mitigating evidence and racial bias. The next part covers death-eligible crimes, such as rape and other crimes that do not involve homicide and murder. The middle part presents the trial process, from choosing the appropriate decision-makers through the sentencing decision. Followed by this is a chapter focusing on the aftermath of conviction, such as claims of innocence. The book concludes by exploring issues related to execution, such as not executing insane convicts. Finally, execution methods are presented.
