The wheels on the bus go round and round on the way to the watering hole. But who's on the bus? A lion roars, flamingos flap, and a hyena laughs a big ha-ho-hee as they travel on the bus with their animal friends. Don't forget to watch out for the crocodile too, whose jaws go snap! Together, a simple trip becomes a raucous adventure that young readers can sing and move along with at any story hour, family reading time, or energy-filled morning. Jane Cabrera's Story Time celebrates children's best-loved read along nursery rhymes and songs. These interactive favorites are given a new twist by award-winning artist Jane Cabrera and feature her bold, bright, kid-friendly illustrations. Other titles in the series include Ten in the Bed, Old Mother Hubbard, and Old MacDonald Had a Farm.

This book comprehensively reviews the state of the art in millimeter-wave antennas, traces important recent developments and provides information on a wide range of antenna configurations and applications. While fundamental theoretical aspects are discussed whenever necessary, the book primarily focuses on design principles and concepts, manufacture, measurement techniques, and practical results. Each of the various antenna types scalable to millimeter-wave dimensions is considered individually, with coverage of leaky-wave and surface-wave antennas, printed antennas, integrated antennas, and reflector and lens systems. The final two chapters address the subject from a systems perspective, providing an overview of supporting circuitry and examining in detail diverse millimeter-wave applications, including high-speed wireless communications, radio astronomy, and radar. The vast amount of information now available on millimeter-wave systems can be daunting for researchers and designers entering the field. This book offers readers essential guidance, helping them to gain a thorough understanding based on the most recent research findings and serving as a sound basis for informed decision-making.

Principles of Physics is a well-established popular textbook which has been completely revised and updated.

Provides definitions and study tips for over sixteen hundred frequently used SAT words and includes strategies for memorizing the words and answering questions on the test.

Hoping to start his life over after his prison release, ladies' man Seven finds himself tempted by the fast money of the drug trade when his day job fails to provide his desired lifestyle, a circumstance for which he teams up with a fellow ex-con for a high-stakes operation. Original. 60,000 first printing.

Easter Cracked is a vital resource for churches hoping to make the most of the opportunities they have to reach out during Easter. Contains services, craft, drama and more to use with all-ages.
