Atlas Copco Exploration Products Diamec

Atlas Copco Exploration Products. Diamec™ core drilling rigs. Diamec core drilling rigs – the latest in exploration technology. At home above or below ground. The compact size of the Diamec rigs enables them to move in tight spaces with minimum disturbance. This makes them ideal for underground exploration.

---

Atlas Copco Exploration Products Diamec™ core drilling rigs

Product description. The compact design of the Diamec 232 underground core drilling rig makes it ideal for core drilling in narrow tunnels or in galleries. The Diamec 232 is quick and easy to set up. It includes mechanized rod handling, a hinge-mounted rod holder, and a rugged rotation unit which all helps to provide flexible and efficient drilling.
