Oracle Berkeley DB. Berkeley DB is a family of embedded key-value database libraries providing scalable high-performance data management services to applications. The Berkeley DB products use simple function-call APIs for data access and management. Berkeley DB enables the development of custom data management solutions, without the overhead traditionally associated with such custom projects.

Berkeley DB Java Edition Release
History - Oracle

Berkeley DB Java Edition (JE) is a
pure Java database management
library. Its design resembles that
of Berkeley DB without replicating
it exactly, and has a feature set
that includes many of those found
in the traditional Berkeley DB and
others that are specific to the Java
Edition.
