It can be easy to be green! Follow these suggestions and help save the planet Get on board the green machine! Here's how to assess your technology's green factor and make small changes with big impact. You'll also find tips for using technology in green ways and advice on getting rid of old devices in an environmentally friendly way. Learn what to buy, when to upgrade, where to find green ideas, and much more. Watch your step – calculate the size of your carbon footprint and see how much your electronics contribute to it Do your home work – find great advice to help you make the case to your employer for telecommuting options You have the power – to use less energy, and you'll find lots of ways to do that Green upgrades – discover how to give your current computer a green makeover Buying green – learn what to look for when shopping for a new computer and peripherals When it's time to retire your electronic devices – uncover earth-friendly ways to recycle your old computer and be sure you don't give away your personal data Sharing is good – see how home networks, device sharing, and Windows Home Server can protect the planet The green cloud – find out why cloud computing makes green sense Open the book and find: What the Energy Star can tell you Tips for reducing energy use throughout your home The difference between Energy Star and EnergyGuide How to decide what to print and what to read on an electronic device Ten great places to find green hints Definitions of common green terms How to prepare equipment for recycling Guidelines for setting up a green home office

In the fall of 1930, David Packard left his hometown of Pueblo, Colorado, to enroll at Stanford University, where he befriended another freshman, Bill Hewlett. After graduation, Hewlett and Packard decided to throw their lots in together. They tossed a coin to decide whose name should go first on the notice of incorporation, then cast about in search of products to sell. Today, the one-car garage in Palo Alto that housed their first workshop is a California historic landmark: the birthplace of Silicon Valley. And Hewlett-Packard has produced thousands of innovative products for millions of customers throughout the world. Their little company employs 98,400 people and boasts constantly increasing sales that reached \$25 billion in 1994. While there are many successful companies, there is only one Hewlett-Packard, because from the very beginning, Hewlett and Packard had a way of doing things that was contrary to the prevailing management strategies. In defining the objectives for their company, Packard and Hewlett wanted more than profits, revenue growth and a constant stream of new, happy customers. Hewlett-Packard's success owes a great deal to many factors, including openness to change, an unrelenting will to win, the virtue of sustained hard work and a company-wide commitment to community involvement. As a result, HP now is universally acclaimed as the world's most admired technology company; its wildly successful approach to business has been immortalized as The HP Way. In this book, David Packard tells the simple yet extraordinary story of his life's work and of the truly exceptional company that he and Bill Hewlett started in a garage 55 years ago.

YOU CAN'T MAKE THIS STUFF UP! Here is a hilarious collection that catches real-life knuckleheads in outrageous acts of brazen stupidity, giving new meaning to that famous four-letter word: "DUH"! * The Oregon resident who was waxing his 1984 Pontiac--and somehow managed to shove the antenna up his nose . . . GRANDMOTHER OF EIGHT MAKES HOLE IN ONE * The Atlanta Braves pitcher who was treated for five-inch-long welts after he tried to iron his polo shirt while wearing it . . . MINERS REFUSE TO WORK AFTER DEATH * The inmate at a Chesapeake Correctional Facility who filed a five million dollar lawsuit against himself . . . DRUNK GETS NINE MONTHS IN VIOLIN CASE * The woman who couldn't stand the discomfort of having a callus on her right foot, so she blew off her big toe with a shotgun . . . Radio personality John "Kato" Machay's lively compilation of news stories, headlines, and courtroom gaffes proves hands down that truth is dumber than fiction! REMEMBER: To err may be human, but to laugh out loud is divine.

Reproduction of the original: Cheap Jack Zita by S. Baring-Gould

This book comprises selected papers of the International Conference on Signal Processing, Image Processing and Pattern Recognition, SIP 2011, held as Part of the Future Generation Information Technology Conference, FGIT 2011, in Conjunction with GDC 2011, in Conjunction with GDC 2011, Jeju Island, Korea, in December 2011. The papers presented were carefully reviewed and selected from numerous submissions and focus on the various aspects of signal processing, image processing and pattern recognition.

A Biblical Hebrew and Aramaic Lexicon (BHAL) is a comprehensive dictionary based upon Frank Matheus's PONS Kompaktwörterbuch Althebräisch-Deutsch. BHAL utilizes modern lexical approaches, is extremely clear, and offers efficient access to the information that users need. With nearly 10,000 entries, BHAL covers the entire biblical vocabulary, including the Aramaic portions. Moreover, it offers numerous forms that help the user to find the word she or he is looking for quickly in its specific grammatical form.
