and practices of doing autoethnography; interpreting, analyzing, and representing personal experience; and evaluating autoethnographic work.

“It is time to chart a new course”,

writes Norman K. Denzin in
Interpretive Autoethnography,
Second Edition. "I want to turn
the traditional life story,
biographical project into an
interpretive autoethnographic
project, into a critical,
performative practice, a practice

that begins with the biography of the writer and moves outward to culture, discourse, history, and ideology.” Drawing on C. Wright Mills, Sartre, and Derrida, Denzin lays out the key assumptions, terms, and parameters of autoethnography, provides a

This book is a manifesto. It is about rethinking performance autoethnography, about the formation of a critical performative cultural politics, about what happens when everything is already performative, when the dividing

Access Free Critical Autoethnography

line between performativity and performance disappears. This is a book about the writing called autoethnography. It is also about what this form of writing means for writers who want to perform work that leads to social justice. Denzin's goal is to take the

Access Free Critical Autoethnography

reader through the history, major terms, forms, criticisms and issues confronting performance autoethnography and critical interpretive. To that end many of the chapters are written as performance texts, as ethnodramas. A single thesis

Access Free Critical Autoethnography

organizes this book: the performance turn has been taken in the human disciplines and it must be taken seriously. Multiple informative performance models are discussed: Goffman's dramaturgy; Turner's performance anthropology;

Access Free Critical Autoethnography

performance ethnographies by A. D. Smith, Conquergood, and Madison; Saldana's ethnodramas; Schechter's social theatre; Norris's playacting; Boal's theatre of the oppressed; and Freire's pedagogies of the oppressed. They represent different ways of

staging and hence performing ethnography, resistance and critical pedagogy. They represent different ways of "imagining, and inventing and hence performing alternative imaginaries, alternative counter-performances to war, violence, and the

(Schechner 2015). This book
provides a systematic treatment
of the origins, goals, concepts,
genres, methods, aesthetics,
ethics and truth conditions of
critical performance
autoethnography. Denzin uses

the performance text as a vehicle for taking up the hard questions about reading, writing, performing and doing critical work that makes a difference.

This methods book will guide the reader through the process of

Access Free Critical Autoethnography

shows how to transform this information into a study that looks for the connection with others present in a diverse world. She shows how the autoethnographic process promotes self-reflection, understanding of multicultural

The philosophical foundation of emancipatory knowledge lies in

Access Free Critical Autoethnography

critical theory. In this paradigm, instrumental and communicative knowledge are not rejected but are limited. If we do not question current scientific and social theories and accepted truths, we may never realize how we are constrained by their inevitable

Access Free Critical Autoethnography

distortions and errors. Without the possibility of critical questioning of ourselves and our beliefs, such constraining knowledge can be accepted by entire cultures. The research paradigm that is relevant for constructing this kind of

Access Free Critical Autoethnography

knowledge is the critical paradigm. Data are always qualitative and have specific methods of research. Quantitative research unquestionably has a place and is fundamental to scientific advances, but qualitative research delves into

Access Free Critical Autoethnography

what it is to be human. Through qualitative research, we gain insight into communicative knowledge, its rich nature, and the mechanisms by which communicative knowledge is formed and interpreted. Qualitative research enables the

Access Free Critical Autoethnography

necessary exploration and critical analysis of social systems and uncovers and facilitates critical reflections on the inevitable assumptions, which shape social behavior and interaction, thereby stimulating and empowering change. Promoting Qualitative

Access Free Critical Autoethnography

Research Methods for Critical Reflection and Change provides readers with a comprehensive array of qualitative research methods, which can be implemented in a variety of contexts for a variety of purposes. The chapters explore

Access Free Critical Autoethnography

the impact, uses, and methodologies for qualitative research across various fields of research. This book is ideal for practitioners, researchers, academicians, and students interested in the use of qualitative research methods.
