Discounting Libor Cva
And Funding

The subject of the
book (Discounting,

Online Library Discounting

CVA, Funding) is timely given the changes in interest rate quantitative finance over the last 5 years.

The short book introduces the different subjects. For a short book it tries to cover too many subjects. I bought the book mainly for the discounting part (the so-called OIS

Online Library Discounting

discounting or multi-
curves framework).
