About Herbs. In the tenth River Cottage Handbook, Nikki Duffy shows how to grow and cook with herbs. Herbs are the most liberating and confidence-boosting of ingredients: grow some and you feel like a proper gardener, bring some into the kitchen and you feel like a proper cook. They allow you to experiment and bring individuality to your cooking while, at the same time, anchoring you in sound culinary tradition because herbs are often responsible for those key flavours that 'make' a dish.

I have previously bought the River Cottage Veg Patch and the RC Bread books, and they are all consistently brilliant. They have made a poor baker and gardener into a less poor baker and gardener, how's that!?

In the tenth River Cottage Handbook, Nikki Duffy shows how to grow and cook with herbs. Herbs are the most liberating and confidence-boosting of ingredients: grow some and you feel like a proper gardener, bring some into the kitchen and you feel like a proper cook. They allow you to experiment and bring individuality to your cooking while, at the same time, anchoring you in sound culinary tradition because herbs are often responsible for those key flavours that 'make' a dish. Not only that but they are a step on the road to a more self-sufficient, homegrown, organic way of eating. In the first part of the book, Nikki explains how to get the most from herbs. She outlines the basic choosing, picking and using guidelines. The second part is a catalogue of herbs, each with grow-your-own notes, flavour descriptions and mini-recipes. Among the forty herbs that Nikki describes are basil, bay, bergamot, chives, coriander, dill, fennel, horseradish, hyssop, marigold, marjoram, mint, parsley, perilla, rocket, rosemary, sage, scented geranium, tarragon, thyme, wild garlic and winter savory. Following this are over fifty wonderful and adaptable recipes for everything from herb-scented cakes and biscuits to soups, stuffings and tarts, where more than one herb is, or can be, used. With an introduction by Hugh Fearnley-Whittingstall and full-colour photographs, Herbs is a must-have book for every kitchen.

In the seventh of the River Cottage Handbook series, John Wright explores the culinary delights of the British hedgerow. Hedgerows, moors, meadows and woods - these hold a veritable feast for the forager. In this hugely informative and witty handbook, John Wright reveals how to spot the free and delicious pickings to be found in the British countryside, and how to prepare and cook them. First John touches on the basics for the hedgerow forager, with an introduction to conservation, safety, the law, and all the equipment that you may need. Next he guides you through the tasty edible species to be found. Each one is accompanied by photographs for identification, along with their conservation status, habitat, distribution, season, taste, texture and cooking methods - not forgetting, of course, some fascinating asides and diversions about their taxonomy and history. Fifty species are covered, including bilberries, blackberries, raspberries, common mallow, dandelions, hedge garlic, horseradish, pignuts, nettles, sloes, sweet chestnuts, water mint, bulrushes and wild cherries. After this there is a section describing the poisonous species to steer clear of, with identifying photographs as well as warnings about nasty 'lookalikes'. Finally, there are thirty delicious recipes to show how you can make the most of your (edible) findings. Introduced by Hugh Fearnley-Whittingstall, Hedgerow is an indispensable household reference, and an essential book to have by your side for every trip into the countryside.

A thoroughly practical guide to catching, preparing and cooking sea fish, from the bestselling River Cottage Handbook series From renowned fishing expert Nick Fisher comes this concise and beautifully illustrated guide to fishing along British coastline. All that's needed is a beach, pier, harbour, estuary or boat. Nick covers all the basics, such as when and where to go fishing, and then profiles the sea fish that you are likely to catch (each one clearly photographed), covering their conservation status, season, habitat and method of catching. Next he gets down to the nitty gritty, with a guide to tackles, rods, reeds, rigs, knots and bait, and step-by-step advice on all the sea fishing techniques. And for once you've made your catch, there are 30 delicious recipes from River Cottage.

As a finishing touch, there is a section devoted to sweet embellishments like feather icing, crystallised violets and chocolate leaves. In Fermentation, Rachel de Thamply shines a light on one of the oldest methods of preserving food, which is just as relevant today, and shows you how to produce delicious and health-boosting ferments in your own kitchen. There are more than 80 simple recipes to make everything from sauerkraut and sourdough, kimchee and kombucha, to pickles and preserves, accompanied by thorough explanations of how the fermenting process works. With little more than yeast and bacteria, salt and time, a whole realm of culinary possibilities opens up. With an introduction by Hugh Fearnley-Whittingstall and plenty of helpful step-by-step photographs, this book will bring the art of fermentation to your kitchen.

In this new addition to the award-winning collection, River Cottage master preserver Pam Corbin helps you transform the abundance of your garden (and your friends' and neighbors' gardens) into everything from jams and jellies to vinegars and sauces. The River Cottage farm, established by British food personality Hugh Fearnley-Whittingstall to promote high-quality, seasonal, and sustainable food, has inspired a television series, restaurants and classes, and a hit series of books. Now, with The River Cottage Preserves Handbook, learn to make everything from simple Strawberry Jam to scrumptious new combinations like Honeyed Hazelnuts, Nasturtium "Capers," Onion Marmalade, Spiced Brandy Plums, and Elixir of Sage, plus a pantryful of butters, curds, pickles, chutneys, cordials, and liqueurs.

In the ninth River Cottage Handbook, Mark Diacono explains how to nurture and grow your own garden fruit. Growing fruit at home is a delicious and altogether more enjoyable alternative to buying it in the shops. Mark Diacono offers a practical and accessible guide to making the most of your garden and what it has to offer. The first part of the book is an A-Z of the different varieties of fruit, with old favourites like apples, cherries, plums, blackcurrants, white currants, redcurrants, strawberries, blueberries, gooseberries, raspberries and rhubarb as well as more exotic species like figs, grapes, cranberries, Japanese wine berries and apricots. Each is accompanied by a photograph, with detailed advice on when and how to grow and harvest. In the second part of the book, Mark gives straightforward guidelines on techniques like pruning and training, as well as how to deal with problems or pests. There is a section dedicated to growing under covers and in containers. Introduced by Hugh Fearnley-Whittingstall and with 30 delicious recipes, beautiful, full-colour photographs and a directory of useful addresses, this is the ideal reference for any aspiring fruit grower.

In the fourteenth River Cottage Handbook, Gill Meller shows how to keep pigs and cook with pork. Keeping a herd of pigs brings a lot of enjoyment — they are curious, intelligent and (often) lovable animals, with plenty of character. When the time comes, they can provide you with a fine carcass that can be turned into all manner of tasty things. The River Cottage ethos is all about knowing the story behind what's on the plate, and as Gill Meller explains in this accessible and comprehensive guide, by rearing and butchering your own pigs you'll be able to create a full range of delicious pork products in the most sustainable, economical and hands-on way possible. Pigs & Pork gives expert advice on choosing whether to keep your own pigs, on sourcing them and setting up their home, and on feeding and caring for them. Gill also explains how you can arrange for the pigs' eventual slaughter, and how to find a good butcher or carry out your own butchery at home and identify the different cuts of meat. And even if you are buying your pork from the butcher, there is plenty to inspire. In the mouth-watering recipe section you will find the ultimate roast pork, farmhouse pâté s, pork scratchings, brawn, sausages, rillettes, pork pies, Scotch eggs and black pudding, as well as instructions for how to home-cure your own bacon, ham and salami. And of course, there are guidelines for setting up a proper hog roast to cater for large numbers, River Cottage-style — simply the perfect fare for an outside gathering. Whether you are just after the secret to sensational crackling, or you want to go the whole hog and set up your own sty, this book will guide you on the road to pork heaven.

In the thirteenth River Cottage Handbook, Steven Lamb shows how to cure and smoke your own meat, fish and cheese. Curing and smoking your own food is a bit of a lost art in Britain these days. While our European neighbours have continued to use these methods on their meat, fish and cheese for centuries, we seem to have lost the habit. But with the right guidance, anyone can preserve fresh produce, whether living on a country farm or in an urban flat — it doesn't have to take up a huge amount of space. The River Cottage ethos is all about knowing the whole story behind what you put on the table; and as Steven Lamb explains in this thorough, accessible guide, it's easy to take good-quality ingredients and turn them into something sensational. Curing & Smoking begins with a detailed breakdown of any kit you might need (from sharp knives to sausage stuffers, for the gadget-loving cook) and an explanation of the preservation process — this includes a section showing which products and cuts are most suitable for different methods of curing and smoking. The second part of the book is organised by preservation method, with an introduction to each one, and comprehensive guidance on how to do it. And for each method, there are, of course, many delicious recipes! These include chorizo Scotch eggs, salt beef, hot smoked mackerel, home-made gravadlax ... and your own dry-cured streaky bacon sizzling in the breakfast frying-pan. With an introduction by Hugh Fearnley-Whittingstall and full-colour photographs as well as illustrations, this book is the go-to guide for anyone who wants to smoke, brine or air-dry their way to a happier kitchen.

Game offers some of the most intense, delicate, rich, and varied meat around. And not only is it delicious, it can also be a healthy and more nutritious alternative to traditional red meats. Here, Tim Maddams gives an accessible guide to obtaining, assessing, preparing, and cooking game, including pheasant, grouse, venison, partridge, hare, rabbit, boar, and duck. Tim begins by describing the characteristics of game species, followed by a discussion of ethical and sustainable hunting, preservation, and seasonality. Next, he gives a step-by-step guide to skinning, feathering, and butchering techniques (and how to buy game meat if you don't have a fresh supply). Lastly, he shares his seriously tasty recipes from the River Cottage kitchen, such as Slow-Roast Spiced Soy Duck, Quick-Smoked Mallard, Pheasant and Wild Mushroom Lasagna, Partridge with Pumpkin and Cider, Goose Sausages, Gamekeeper's Pie, and Roasted Hen Pheasant with All the Trimmings. With an introduction by Hugh Fearnley-Whittingstall and color photography throughout, Game is the indispensable guide to enjoying wild meat.
