Introduction to Psychotherapy: An Outline of Psychodynamic ...

A very basic introduction, which does not provide enough depth to be worth the time it takes to read. Instead a much better grounding is to be found in Gabbard's Psychodynamic Psychiatry, where at least by the end you feel like you have more than a lay-person's Wikipedia-level grasp of the topic and feel it was time well spent.

Introduction to Psychotherapy: An Outline of Psychodynamic ...

Introduction to Psychotherapy has been an essential reference book since its publication in 1979, and is regularly included in reading lists for trainee psychotherapists, psychiatrists and other professionals. It is often recommended to interested lay people and prospective patients. This third edition takes into account recent changes in psychotherapy theory, practice and research.
