Brian Malloy's acclaimed debut novel set in Minneapolis in the late 70's, *The Year of Ice* is the story of a painfully revealing year that threatens to shatter the tenuous bonds between a father and his teenage son. It is 1978 in the Twin Cities, and Kevin Doyle, a high school senior, is a marginal student in love with keggers,

rock and roll, and--unbeknownst to anyone else--a boy in his class with thick eyelashes and a bad attitude. His mother Eileen died two years earlier when her car plunged into the icy waters of the Mississippi River, and since then Kevin's relationship with his father Patrick has become increasingly distant. As lonely

women vie for his father's attention, Kevin discovers Patrick's own closely guarded secret: he had planned to abandon his family for another woman. More disturbingly, his mother's death may well have been a suicide, not an accident. Complicating the family dynamic is the constant meddling of Kevin's outspoken

Aunt Nora--who will never forgive Patrick for Eileen's death--along with Patrick's inability to stay single for very long. His loyalties divided between his father and his aunt, between his internal reality and his public persona, Kevin is forced to accept his gay identity and reevaluate his notions of family and love as painful

These hilarious essays on life inside and outside a Zen monastery make up the spiritual memoir of Shozan Jack Haubner, a Zen monk who didn't really start out to be one. Asphalt Nation is a major work of urban studies that examines how the automobile has ravaged America's cities and landscape, and how we can fight back. The automobile was once seen as a boon

to American life, eradicating the pollution caused by horses and granting citizens new levels of personal freedom and mobility. But it was not long before the servant became the master—public spaces were designed to accommodate the automobile at the expense of the pedestrian, mass transportation was

neglected, and the poor, unable to afford cars, saw their access to jobs and amenities worsen. Now even drivers themselves suffer, as cars choke the highways and pollution and congestion have replaced the fresh air of the open road. Today our world revolves around the car—as a nation, we spend eight billion

Citing successful efforts in places from Portland, Maine, to Portland, Oregon, Kay shows us that radical change is not impossible by any means. She demonstrates that there are economic,
