## Download File PDF Metal Working And Metrology

The main goal of automating metrology into manufacturing processes is to ensure that the quality of products being built remains within the design tolerances by monitoring the process in real-time, allowing the warning or control limit settings

## Download File PDF Metal Working And Metrology

to make adjustments to the process so that out-of-tolerance limits are never reached when tool wear occurs. This remedies any errors or deviations much faster, reducing the risk of making bad parts before any subsequent ones are manufactured.
