Based Medical Education ...

Assessment of individual competencies through milestones can be challenging. While competencies describe characteristics of the person, the entrustable professional activities (EPAs) concept refers to work-related activities. EPAs would not replace the milestones but would be linked to them, integrating these frameworks.

AAIM Education Redesign Committee proposed a draft set of entrustable professional activities (EPAs) to help program directors achieve the goals of competency-based medical education. Using feedback provided by members of the AAIM community, the AAIM Education Redesign Committee revised and slightly expanded this list of EPAs to include 16 activities that constitute the core of the profession.
