Shouldn't we teach students to read and comprehend books in a manner that is consistent with how they will read and comprehend as adults? The book "Mosaic of Thought" by Ellin Oliver Keene and Susan Zimmermann, as well as the Reader's Workshop method, moves away from worksheets with comprehension questions that use more real-world, student-driven instruction.

'Mosaic of Thought' Workshop for Reading Comprehension

An internationally-known speaker, workshop leader, and consultant, Susan Zimmermann is coauthor of educational bestsellers Mosaic of Thought (1997 and 2007 2nd edition), 7 Keys to Comprehension, and Comprehension Going Forward (2011), books that are changing the way reading is taught in classrooms throughout America.

Amazon.com: Mosaic of Thought: The Power of Comprehension ...

As a student preparing to become an elementary school teacher I found Mosaic of Thought to be extremely enlightening as to how people read and how one can improve reading comprehension. I plan on using the knowledge I learned in this book such as schema, sensory images, asking questions while reading, inferring, and etc., to teach children how to improve their meta cognition in terms of reading.

Straightforward and jargon-free, Mosaic of Thought is relevant to all literature-based classrooms, regardless of level. It offers practical tools for inservice teachers, as well as essential methods instruction for preservice teachers at both the undergraduate and graduate level.

Explains how teachers can enhance their students comprehension skills; providing classroom strategies, examples, vignettes, tools for creating reader workshops, advice on think-alouds and conferring, and tips on long-term planning.

Developed by renowned author Ellin Keene, Assessing Comprehension Thinking Strategies is an ideal tool for assessing students' reading comprehension. This book offers a unique way of assessing how students use thinking strategies to comprehend text. The book contains four reading passages for each grade level (1-8) that offer high-interest fiction and nonfiction text. Each assessment is accompanied by a rubric that allows you to document students' thinking and then score and monitor their growth. Strategies assessed include thinking aloud, using schema, inferring, asking questions, determining.

Mosaic of Thought Online Course available to all adopters of 25 copies or more of "Mosaic of Thought," Second Edition.Ellin Oliver Keene and Susan Zimmermann have returned with a new edition of "Mosaic of Thought "that features 70 percent new material. When the first edition published ten years ago, "Mosaic of Thought" became a runaway best seller as the first book to explicitly describe the use and benefits of strategy-based comprehension instruction. Since then comprehension strategy instruction has exploded, leading to numerous inspiring variations on "Mosaic"s instructional principles, as well as a widening of the comprehension research base. Now the second edition offers up-to-the-minute insight for classroom teachers, literacy coaches, and school leaders everywhere, and reminds everyone of precisely what effective, long-lasting comprehension teaching looks like. "Mosaic of Thought, "Second Edition, has been carefully revised and reflects Keene and Zimmermann's latest thinking. It's designed to help teachers implement practical, thoughtful ideas for teaching comprehension in contemporary classrooms through the seven core strategies that successful readers use to engage with texts. Packed with new classroom examples, grounded in the latest research, and written in the same accessible tone as the first edition, reaffirms the essential elements of powerful comprehension teaching introduced in the first edition while adding and updating features, including: Key Ideas sections for each strategy that describe crucial comprehension concepts new classroom examples that show comprehension strategies put into action in dynamic, literature-rich, current classrooms new opening vignettesthat illustrate the concepts students will learn through explorations of the thinking used by proficient adult readers new tools to help teachers create effective reader's workshops innovations from teachers around the country for fine tuning think-alouds and conferring practices new advice on long-term instructional planning. Keene and Zimmermann have also created an invaluable Q-and-A section with smart, informed responses to the questions that today's teachers most frequently ask about strategy-based teaching. Whether you are just now joining the hundreds of thousands of teachers who have made Keene and Zimmermann their central resource for comprehension teaching, or whether you've relied on their advice for years, "Mosaic of Thought," Second Edition, will change your literacy instruction - and possibly your own reading - forever. It's filled with vital, new information, new research, and proven practices. Read it today and give your students strategies for connecting with texts that will last a lifetime.

Just as comprehension strategies have helped millions of students learn to read like proficient readers, they can also help students think like effective test takers. The authors show how students can use questioning, mental images, inferring, synthesizing, background knowledge, determining importance, and monitoring to understand the genre of tests and to think through the problems they are given. Instead of spending time on artificial and disconnected activities to cram for upcoming tests, students learn skills and strategies that will serve them throughout their school careers and beyond.

"The real genius of this book is that it is written by teachers, for teachers. All of the authors in this book know what classrooms are like. This means that authenticity and integrity pervade every chapter in the book. Teachers will immediately sense this authenticity on their way to realizing that the book offers an endless supply of useful suggestions." -From the Coda by P. David Pearson For those of us who teach comprehension strategies,Comprehension Going Forward is as near to the ultimate PD experience as we can get. Imagine a professional learning community where you could sit in as... Ellin Keene and Debbie Miller swap best practices Stephanie Harvey and Harvey "Smokey" Daniels compare instruction across the grades Anne Goudvis and Tanny McGregor share ways to infuse comprehension into every subject area Cris Tovani and Nancy Commins apply the strategies to help struggling readers, English learners, and special-needs students. In Comprehension Going Forward, you'll meet up with 17 leading practitioners and researchers for an energetic, personal, and frequently irreverent conversation on what great comprehension instruction looks like, what an amazing range of applications it has for all students, and what we can do better. Not only do figures such as Susan Zimmerman and P. David Pearson include their own chapters, but, like any exciting conversation, they point out their favorite parts of one another's chapters-highlighting discussion topics for teacher study groups along the way. Read Comprehension Going Forward and RSVP to a get-together that no one who teaches reading will want to miss. Enter this powerful, lively conversation about how we can improve all readers' comprehension today and join some of your favorite authors as they reach for a tomorrow where every child reads with deep understanding. "Each author takes the comprehension strategies as a starting point, and then reaches out toward a different set of applications, extensions, and practices. But everyone is connected by the research base on comprehension instruction and by our common goal: to provide every child in America with an "All-Access Pass" to literacy." -From the editor's introduction by Harvey "Smokey" Daniels

To Understand proposes a model that incorporates all aspects of literacy instruction and describes how teachers can focus on what matters most. Keene shows that when teachers target the most essential content, they can help every student engage more deeply with texts and discover a passion for reading and learning. You'll learn to draw out students' intellectual interests and spark improvements in their literacy learning and comprehension-even among students who struggle. You'll see that teaching the Outcomes and Dimensions of Understanding can help readers exceed expectations and also help broaden your vision of their capacity and energy for learning.

This book presents a practical model and specific unit- and lesson-planning ideas for enhancing students' reading comprehension in any 2-8 classroom. The authors provide innovative suggestions that help teachers construct a comprehension curriculum organized around literature, informational texts, or a basal reading program. Vivid case examples and vignettes bring to life ways to build the knowledge, strategies, and motivation that children need to engage with different types of texts and become proficient, enthusiastic readers. Graphic elements throughout the volume link instructional and assessment practices directly to the Common Core standards.

It's simple: If children don't understand what they read, they will never embrace reading. And that limits what they can learn while in school. This fact frightens parents, worries teachers, and ultimately hurts children. 7 Keys to Comprehension is the result of cutting-edge research. It gives parents and teachers—those who aren't already using this valuable program—practical, thoughtful advice about the seven simple thinking strategies that proficient readers use: • Connecting reading to their background knowledge • Creating sensory images • Asking questions • Drawing inferences • Determining what's important • Synthesizing ideas • Solving problems Easily understood, easily applied, and proven successful, this essential educational tool helps parents and teachers to turn reading into a fun and rewarding adventure.

In the second edition of Reading with Meaning, Debbie Miller shares her new thinking about comprehension strategy instruction, the gradual release of responsibility instructional model, and planning for student engagement and independence. It has been ten years since the first edition, in which Debbie chronicled a year in her own classroom. Reading with Meaning, Second Edition supports that work and expands her vision of strategy instruction and intentional teaching and learning. Debbie believes that every child deserves at least a full year of growth during each classroom year and offers planning documents with matching assessments to ensure that no child falls through the cracks. The second edition also provides new book recommendations that will engage and delight students, and current picture books for reading aloud and strategy instruction. This new edition reflects Debbie's professional experiences and judgment, her work in classrooms and collaboration with colleagues, and the current research in the field, showcasing her newest, best thinking.
