The study of ocean surface currents involves the realm of
the ocean with which people are most familiar. Their study
can be tied into existing disciplines at many levels, covering
study of the motion of objects, fluid behavior, ocean travel,
global energy flow, thermodynamics and abundance of
ocean life.

How does science affect technology? A. Advances in science contribute to advances in technology. 1. Technology is how people change the world

~~Guided Reading and Study Workbook~~

Ocean movement is created by the governing principles of physics and chemistry. Friction, drag, and density all come into play when describing the nature of a wave, the movement of a current, or the ebb of a tide. Ocean motion is influenced by occurrences here on Earth that are familiar, like heat changes and wind.
