"The newbie investor will not find a better guide to personal finance." –Burton Malkiel, author of A RANDOM WALK DOWN WALL STREET TV analysts and money managers would have you believe your finances are enormously complicated, and if you don't follow their guidance, you'll end up in the poorhouse. They're wrong. When University of Chicago professor Harold Pollack interviewed Helaine Olen, an award-winning financial journalist and the author of the bestselling Pound Foolish, he made an offhand suggestion: everything you need to know about managing your money could fit on an index card. To prove his point, he grabbed a 4" x 6" card, scribbled down a list of rules, and posted a picture of the card online. The post went viral. Now, Pollack teams up with Olen to explain why the ten simple rules of the index card outperform more complicated financial strategies. Inside is an easy-to-follow action plan that works in good times and bad, giving you the tools, knowledge, and confidence to seize control of your financial life.

When it comes to protecting your financial future, starting sooner rather than later is the smartest thing you can do. This hands-on guide provides you with the targeted financial advice you need to establish firm financial footing in your 20s and to secure your finances for years to come.

When it comes to money management, most of us take a hands-off approach because we're just not confident that we have the know-how needed. But personal finance is actually more personal than it is finance. Tim Maurer has made a career out of distilling complex financial concepts into understandable, doable actions. In this eminently practical book, he shows readers how to - better understand their values and goals in order to simplify their money decisions - budget major expenses intelligently - reduce and eliminate debt - make vital decisions on home, auto, and life insurance - establish a world-class investment portfolio - craft a workable retirement plan - and more Readers will be relieved to see that managing their money is actually not as complicated as they thought--and that they can take control of their financial future starting today.

You're smart. So don't be dumb about money. Pinpoint your biggest money blind spots and take control of your finances with these tools from CBS News Business Analyst and host of the nationally syndicated radio show Jill on Money, Jill Schlesinger. "A must-read . . . This straightforward and pleasingly opinionated book may persuade more of us to think about financial planning."--Financial Times Hey you . . . you saw the title. You get the deal. You're smart. You've made a few dollars. You've done what the financial books and websites tell you to do. So why isn't it working? Maybe emotions and expectations are getting in the way of good sense--or you're paying attention to the wrong people. If you've started counting your lattes, for god's sake, just stop. Read this book instead. After decades of working as a Wall Street trader, investment adviser, and money expert for CBS News, Jill Schlesinger reveals thirteen costly mistakes you may be making right now with your money. Drawing on personal stories and a hefty dose of humor, Schlesinger argues that even the brightest people can behave like financial dumb asses because of emotional blind spots.
