text has all the tools you need to better understand the complicated subject of pharmacology. UNIQUE! Prototype drug charts provide easy access to key information for representative drugs, including dosages, contraindications, drug-lab-food interactions, pharmacokinetics, and more. UNIQUE! Extensive chapter on drug calculations presents six methods of dosage calculation, providing a helpful review and supplement to a dosage calculations textbook. UNIQUE! Nursing process summaries highlight important nursing considerations within the framework of the nursing process. Consistent RN-standard chapter pedagogy includes: online learning resources on the companion Evolve website, objectives, and outline. Critical thinking case studies challenge you to apply your knowledge and analytical skills to realistic patient scenarios. Answer guidelines are provided on the Evolve website. Application-level NCLEX study questions include at least one alternate-format question included per chapter. Chapter on safety and quality discusses medication errors, specific nursing measures to promote safety, National Patient Safety Goals, and many other safety issues and concerns. Prioritization coverage throughout the text helps you learn to prioritize nursing care and differentiate need-to-know from nice-to-know content. NEW! Thoroughly updated drug content reflects the very latest FDA drug approvals, withdrawals, and therapeutic uses, as well as corresponding updated nursing content. NEW! New nursing concepts have been added to the nursing processes to further support conceptual learning and higher-level thinking. NEW! New chapter on pharmacogenetics details how a patient's genetic makeup may affect his or her response to drugs. NEW! Additional student review questions have been added to thoroughly prepare you for the growing pharmacology coverage on the NCLEX Exam. NEW! Updated antihypertensive guidelines (published in November 2017)
