and Political Ideas~~

The Industrial Revolution allowed certain men to amass great fortunes and build monopolistic corporations. Industrialists like Andrew Carnegie and John D. Rockefeller dominated their fields. As a way of curbing the negative effects of monopoly, the government enacted antitrust laws, much to the chagrin of the magnates.

~~Political Changes — History Learning Site~~

The Industrial Revolution, now also known as the First Industrial Revolution, was the transition to new manufacturing processes in Europe and the United States, in the period from about 1760 to sometime between 1820 and 1840. This transition included going from hand production methods to machines, new chemical manufacturing and iron production processes, the increasing use of steam power and ...

~~Industrial Revolution — Wikipedia~~

By 1830, the Industrial Revolution had created a new source of social and economic power: ownership of factories. So it was not surprising that wealthy business owners wanted to share in political power as well. The major landmark of political change brought about by the Industrial Revolution was the Reform Bill of 1832.

alteration in government and in related associations and structures. The term is used by analogy in such expressions as the Industrial Revolution, where it refers to a radical and profound change in economic relationships and technological conditions.

~~Revolution | politics | Britannica~~

A political revolution, in the Trotskyist theory, is an upheaval in which the government is replaced, or the form of government altered, but in which property relations are predominantly left intact. The revolutions in France in 1830 and 1848 are often cited as political revolutions.. Political revolutions are contrasted with social revolutions in which old property relations are overturned.
