Maths Problem Solving - Year 5 is the fifth book in the Maths Problem
Solving series. The books have been written for teachers to use during
the numeracy lesson. They cover the 'solving problem' objectives from
the numeracy framework. This book contains three chapters; Making
decisions, Reasoning about numbers or shapes and Problems involving
'real life', money or measures. The books are designed in such a way
that each section has six stages of questions to be worked through.
Every stage is split into three levels, for example 1a, 1b or 1c,
based on achievement. Each corresponding question from these levels
follow the same line of questioning, so that when the teacher talks
about a certain question, the solution process is the same for each
level but the complexity of the sum varies.

Two short tests for every unit (one for lessons A-C and one for
lessons D-G), testing vocabulary, grammar, and everyday English Longer
Progress Test for every unit, checking reading, listening, and writing
skills Differently worded A and B tests, whilst examining the same
core language, ensure that students are unable to copy from one
another, making classroom management during tests easier for teachers
Three Cumulative Tests to cover units 1-5, 6-10, and 1-10 Multiple
choice-style Placement Test Typical exam-type tasks to help students

A series of Workbooks offering practical English lessons for school students preparing for work.

The Workbook offers plenty of extra practice, revision, and reviews. Mirroring the Student's Book content, with the same clear structure, it provides extra reading and writing practice opportunities for both weaker and stronger students. The Writing Bank at the back of the book gives a quick guide to text types, with model structures and key language as well as exam strategies, plus a Functions Bank for functional phrases for speaking and writing. There is plenty of exam practice in the Get Ready for your Exam sections and these, along with the Self-Check pages after each unit and the review sections at the back of the books, allow students and their teachers to keep track of their progress as they work towards their exams. The accompanying Audio CD offers students a huge amount of listening practice. There are audio recordings for tasks in every lesson (not only for the Vocabulary & Listening lessons).

"A rich character study and a twisty whodunit, adding one more voice to the lively conversation about the boundaries between memoir and fiction" (Entertainment Weekly). Pete Ferry, our narrator, teaches high school English in the wealthy Chicago suburb of Lake Forest and moonlights as a travel writer. On his way home after work one evening, he witnesses a car accident that kills a beautiful woman named Lisa Kim. But was it an accident? Could Pete have prevented it? And did it actually happen, or is this just an elaborate tale he concocts to impart the power of story to his teenage students? Why can't he stop thinking about Lisa Kim? And what might his obsession with her mean to his relationship with his girlfriend, Lydia? With humor, tenderness, and suspense, *Travel Writing* takes readers on fascinating journeys, both geographical and psychological, and delves into the notion that the line between fact and fiction is often negotiable. "A great and edifying read." —Dave Eggers "Travel Writing is an absolute pleasure to read. It is ensnaring, funny, suspenseful, smart and poignant." —Chicago Tribune "Ferry builds his quietly tricky tale around an English teacher's amateur investigation into a traffic fatality . . . Earnest, engrossing and affecting." —Publishers Weekly
