Analyst who predicted 2008 global financial crash warns ...

The financial crisis has shaken the economists' view of the rationality of individuals and efficiency of markets. After regulation, the most highly rated causes of the crisis were irrational beliefs (on house prices or risk) and corrupt incentives (fraud in mortgages and credit rating agencies). Household debt is only seventh on the list.

Who Is to Blame for the 2008 Financial Crisis? - Pro Market

The majority report of the Financial Crisis Inquiry Commission, written by the six Democratic appointees, the minority report, written by three of the four Republican appointees, studies by Federal Reserve economists, and the work of several independent scholars generally contend that government affordable housing policy was not the primary cause of the financial crisis. Although they concede that governmental policies had some role in causing the crisis, they contend that GSE loans ...
