Dona Speir tells her story, from high school gymnast and track star to model, Playboy centerfold, B-movie icon, rape survivor, recovering addict, and recovery counselor and mentor. There was the rarified world of international modeling and global jet-setting, being photographed by the world-famous Arny Freytag for a Playboy centerfold and starring in seven Andy Sidaris action adventure films. But there was also abuse by predatory and powerful men including Bill Cosby and struggles with drugs and alcohol. And then there was her journey toward recovery and helping others. This study of Dona's survival is a provocative, powerful blueprint of how to do more than just survive -- to recover and thrive. Dona is 32 years sober and CEO of Recovery Coaching Experts. She has mentored hundreds of women with substance abuse and behavioral issues and she has founded women's recovery homes. Her book can help others learn how to identify the traits of sexual predators and protect yourself

and your children, even from those who use charm and persuasion. Dona's experiences can help women understand and survive the social, physical and emotional aspects of substance abuse and lead a peaceful, complete, whole and safe family life. It's a cautionary tale to be sure, but it's also a triumphant one, an uplifting, exciting story of perseverance with an unforgettable heroine that is both timely and timeless.

Across America, strip clubs have come under attack by a politically aggressive segment of the Christian Right. Using plausible-sounding but factually untrue arguments about the harmful effects of strip clubs on their communities, the Christian Right has stoked public outrage and incited local and state governments to impose onerous restrictions on the clubs with the intent of dismantling the exotic dance industry. But an even larger agenda is at work, according to Judith Lynne Hanna. In *Naked Truth*, she builds a convincing case that the attack on exotic dance is part of the activist Christian Right's "grand design" to supplant constitutional democracy in America with a Bible-based theocracy. Hanna takes readers onstage, backstage, and into the community and courts to reveal the conflicts, charges, and realities that are playing out at the intersection of erotic fantasy, religion, politics, and law. She explains why exotic dance is a legitimate form of artistic communication and debunks the many myths and untruths that the Christian Right uses to fight strip clubs. Hanna also demonstrates that while the fight happens at the local level, it is part of a national campaign to regulate sexuality and punish those who do not adhere to Scripture-based moral values. Ultimately, she argues, the naked truth is that the separation of church and state is under siege and our civil liberties—free speech, women's rights, and free enterprise—are at stake.

An NYRB Classics Original. After leaving the Mainland for Hong Kong in 1952, Eileen Chang was commissioned by the United States Information Service to write two books, one of which was her magnificent novel *Naked Earth*. Far from being a simplistic exercise in anti-Communist propaganda (two previous novels Chang wrote were pro-Communist), *Naked Earth* is a powerfully moving, Balzacian tale that follows two young students, Liu Ch'uen and Su Nan, who fall in love at a time when, as Chang writes, "the whole country lay stretched out like an open palm, ready to close around any one person at any minute." Mao's land reform movement is in full force, and Liu and Su Nan are sent to a farm to help the peasants take over

Both Liu and Su Nan harbor festering secrets that are pulling them apart and Liu is eventually imprisoned by his enemies and sent to fight on the Korean front. A romance, a thrilling drama, a tragedy, *Naked Earth* is a stunning work of twentieth-century fiction by one of China's most revered modern novelists.

The first full cultural history of the ultimate modern structure: the airport, revealed as never before ... Since its origins in the muddy fields of flying machines, the airport has arguably become one of the defining institutions of modern life. In *Naked Airport*, critic Alastair Gordon ranges from global geopolitics to action movies to the daily commute, showing how airports have changed our sense of time, distance, travel, style, and even the way cities are built and business is done. Gordon introduces the people who shaped this place of sudden transportation: pilots like Charles Lindberg, architects like Eero Saarinen, politicians like Fiorello La Guardia, and Hitler, who built Berlin's Tempelhof as a showcase for Fascist power. He describes the airport's futuristic contributions, such as credit cards, in the form of fly-now-pay-later schemes, and he charts its shift in popular perception, from glamorous to infuriating. Finally, he analyzes the airport's function in war and peace—its gatekeeper role controlling immigration, its appeal to revolutionaries since the hijackings of the 1960s, and its new frontline position in the struggle against terror. Compelling and accessible, *Naked Airport* is an original history of a long-neglected yet central creation of modern reality and imagination.
