About Theology & Sanity. Frank Sheed has revised and updated his masterpiece. Theology and Sanity in its new form retains all the fire and clarity of the original, is still profoundly committed to - and itself a fine example of - the rationality of Christian faith; but now takes full account of the many changes which have taken place in the Church in the thirty-five years since the first edition was published.

Theology and Sanity is simply one of the best books on the Catholic faith ever written. It offers clear thinking (sanity) when it comes to God and what he has created (everything else). This book revolutionized my life when I first read it over thirty years ago. I was then an Evangelical Protestant and a fan of C.S. Lewis.

Theology and Sanity Continuing my recent foraging through the dusty recesses of my personal library, I pulled from the shelf Frank Sheed's Theology & Sanity. Browsing through its pages I was reminded once again of the richness and vigour of Sheed's apologetics and the way it epitomized the vibrant Catholic evangelism of the pre-Vatican II Church.
