Stakeholder theory deals with discussions on if a business has a greater responsibility towards these stakeholders than towards the shareholders, and how to fulfill these responsibilities. Milton Friedman declared that a business must it serve the interests of the shareholders, but this excessively capitalistic view is discarded by the proponents of Stakeholder theory.

Toward a Theory of Stakeholder Salience in Family Firms 239 115) suggest that professions may illustrate such an organizational form, because they are often subject to multiple logics and they operate within multiple institu- tional spheres; they are "subject to multiple regulatory regimes, embedded within multiple normative orders, and/or constituted by more than one cultural logic."

[Toward a Theory of Stakeholder Salience in Family Firms](#)

The notion of stakeholder salience based on attributes (e.g., power, legitimacy, urgency) is applied in the family business setting. We argue that where principal institutions intersect (i.e., family and business); managerial perceptions of stakeholder salience will be different and more complex than where institutions are based on a single dominant logic.

a theory of stakeholder salience that can explain to whom and to what managers actually pay attention. Among the various ways of identifying stakeholders, as well as in the agency, behavioral, ecological, institutional, resource dependence, and

[PRINCIPLE OF WHO AND WHAT REALLY COUNTS](#)

ATTRIBUTE-BASED STAKEHOLDER SALIENCE Attribute-based salience analysis in the stakeholder literature began to assume its present form in the 1994 Toronto Conference on stakeholder theory (held at the University of Toronto and led by the late Max Clarkson), wherein the participant working groups reported their consensus that three attributes—power, legitimacy, and urgency—are core to stakeholder analysis. Mitchell, Agle, and Wood (1997) later translated these and other ideas into a theory of ...

[Toward a Theory of Stakeholder Salience in Family Firms](#)

Building upon this typology, we further propose a theory of stakeholder salience. In this theory we suggest a dynamic model, based upon the identification typology, that permits the explicit recognition of situational uniqueness and managerial perception to explain how managers prioritize stakeholder relationships.

Abstract. This paper summarizes theoretical knowledge related to an issue of assessment of tourism impacts on a tourism destination. This paper pays special attention to stakeholders' perception of tourism impacts as a popular approach to tourism impacts assessment in recent decades. Its aim is to map the key research focused on classification and assessment of tourism impacts in relation to regional stakeholders, using a summary and comparison of various research approaches over the past ...

Argues that stakeholder theory may be an appropriate model to describe firm behavior and replace the dominant paradigm, the economic model of the firm. However, current conceptualizations of stakeholder theory do not meet the requirements of scientific theory.

[Toward a new theory of the firm: a critique of stakeholder](#)

Another approach to the stakeholder concept is the so called descriptive stakeholder theory. This theory is concerned with how managers and stakeholders actually behave and how they view their actions and roles. The instrumental stakeholder theory deals with how managers should act if they want to flavor and work for their own interests.
