Pirelli: Miscommunication led to 2021 F1 tyre criticism

The 38-year-old also backed the idea of bringing in a softer compound tyre, as Supercars is considering. "I think the racing will improve and the show will improve," remarked Davison.

Supercars to test softer tyre compound at QR - Speedcafe

The mandated tyre pressures also indicate that Pirelli has achieved its goal of creating a more robust tyre that allows teams to run lower pressures. For the Bahrain test the minimum will be 21psi at the front (1.5 less than the standard 2020 tyres) and 20.5 psi at the rear (0.5 less). Read Also: Pirelli concerned about 18-inch F1 tyre test ...

F1 drivers to sample 2021 Pirelli tyres in Bahrain

Although track testing is on hold teams had already received some preliminary data on the 18-inch tyres. "After the test in Jerez with Ferrari and the three sessions we ran last year we were at the point where we had a baseline for 18-inches," said Isola. "So we are starting from that.

From a five-year-old girl racing 60mph micro-midgets in South Africa, to a Formula One driver in the British Championship during her first full year of racing in the UK, and on to becoming the first and only woman ever to win a Formula One race, Desire Wilson was a winner bested by very few of her male rivals. But single-seater racing was just the start of Desire's ascent in motorsport. She won two FIA World Championship Sports Car Endurance races in 1980, and went on to compete in well over 120 types of race car at more than 100 race tracks around the world. Always competitive, she earned a reputation for an intense, no-nonsense approach to racing, shrugging off the media glamour to focus on the hard grind of staying competitive in one of the world's toughest sporting arenas. Moving to the male-dominated world of North American racing, Desire became a pioneer for women racing in the harsh world of Indy Cars, facing discrimination, financial problems, and other obstacles ranging from tragedy to farce. Her career is unique in the world of racing, encompassing everything from club racing to Formula One and World Championship sports cars, to the evil monsters of the IndyCar World Series - the world's fastest race cars. Hers is a story of hardships, fun, tragedy, perseverance, injury, and the amazing behind-the-scenes world masked by the public face and glamour of racing. It tells, too, of the consequences of politics and discrimination in the male world of professional auto racing.

New Scientist magazine was launched in 1956 "for all those men and women who are interested in scientific discovery, and in its industrial, commercial and social consequences". The brand's mission is no different today - for its consumers, New Scientist reports, explores and interprets the results of human endeavour set in the context of society and culture.

One of a 5-volume set, each covering a broad subject, which cumulates annually all citations that appeared during the year in: Highway safety literature. In present volume, annotated entries arranged under emergency services, injuries, investigations and records, and locations. No index.
