8 Understanding

Application

Download File

PDF User

Administration. In the Oracle Application Express development environment, users log in to a shared work area called a workspace. These users are divided into two primary roles: developer and workspace administrator.

Developers can

Download File

PDF User

create and edit applications as well as view developer activity, session state, workspace activity, application, and schema reports.

Understanding

Application

Administration

The Administration

application is

Download File

PDF User

where all users and groups are managed as well as application defaults and ACL's. eGroupware applications can be globally managed here so that you can activate or deactivate applications at the site level, register new applications,

Download File

PDF User

and setup default
access control lists.
