This book is based on the discussions carried out in two seminars on the translation of children ' s literature, coordinated by Maria González Davies and led by Riitta Oittinen. The main focus finally revolved around four questions: a) Tackling

the challenges posed by translating children ' s literature, both picturebooks and books with illustrations, and the range of strategies available to solve specific issues; b) the special characteristics involved in reading aloud, its emotional dimension, and the sphere it occupies

between private and public reading; c) the interpretation and manipulation of child images; and, d) the role of the translator, publishers and mediators as active or passive agents whose decisions may finally mirror the images projected by the authors of the source books. This volume is
