A must-have for every DIY'er! "Better than a Clymer!", say some outboard mechanics. Follow Stew McVicker as he and his kids discover their motor is busted beyond repair in this easy-to-follow step by step celebration of the American can-do, (or "broke and have-to") attitude. McVicker's simple methods are the every-man method of breaking things down into easy to understand sections with enough full color pictures and detail to cover a complete teardown and rebuild on a mind-blowing \$350.00 budget. While he includes part numbers and tool workarounds for Yamaha outboard motors, the backyard tactics he employs translate well to any 2 stroke motor. Save yourself \$5000 and take a look at how easy motor rebuilding can be!
